SUMMARY

UI/UX Product Designer with 10+ years of experience designing Enterprise, B2B, SaaS products for PLM, Supply chain, Logistics, and eCommerce. Experienced in leading end-to-end product design from discovery and research through prototyping, validation, and delivery. Proven track record of building scalable design systems, conducting usability testing, leveraging qualitative and quantitative insights, and translating complex workflows into intuitive user experiences. Skilled at partnering with product, engineering, and business stakeholders to deliver measurable outcomes while incorporating AI-assisted design workflows, rapid prototyping, and data-informed decision making.

EXPERIENCE

Senior UI/UX Designer

Hyderabad (India)

Z2Data, CA, USA

Aug 2025 – Present

Leading SCRM Platform (PLM, supply chain risk, compliance & lifecycle intelligence platform)

- Leading end-to-end UX design of Z2Data's enterprise platform, improving task completion rates and reducing user error rates across critical supply chain risk and compliance workflows for **150+ global enterprise clients**.
- Designed AI-powered enterprise experiences including Retrieval-Augmented Generation (RAG) workflows, conversational interfaces, AI agents, and intelligent data exploration tools supporting supply chain risk and compliance use cases.
- Architected an **atomic design system** (60+ components) covering PLM, risk, and compliance modules, standardising UI across products and reducing design-to-development handoff time significantly.
- Translated complex supplier risk and compliance data into intuitive dashboards and visualisations, enabling faster stakeholder decision-making on risk signals, sustainability, and regulatory compliance.
- Facilitated 10+ stakeholder workshops and user research sessions, directly shaping platform roadmap priorities and driving improvements in enterprise user adoption and engagement.

Senior Product Designer

Remote (India)

Shipeezi Pty. Ltd. Sydney

Dec 2024 – Jun 2025

B2B supply chain SaaS platform · Web & Mobile

- Led complete redesign of Shipeezi's B2B SaaS platform (**12 core flows** across web and mobile) over 10 months, delivering a cohesive, scalable UI that improved developer velocity and reduced design inconsistencies.
- Built a scalable **multi-brand design system** from scratch (2 brands, 50+ components), cutting frontend development time by 40% and enabling consistent UI delivery across all product lines.
- Ran **20+ user interviews** and usability tests, producing data-driven design decisions that increased user satisfaction by 30% and improved onboarding completion time by 25%.
- Delivered end-to-end design artefacts, personas, journey maps, wireframes, high-fidelity prototypes, and developer-ready specs, closing communication gaps across product, engineering, and QA teams.

Senior UI/UX Designer

Remote (India)

Shipeezi Pty. Ltd. via OVE

Sep 2024 – Dec 2024

- **Designed key product flows**, customer onboarding, freight booking, and role-based access, improving usability and operational flexibility for enterprise logistics users.
- Re-engaged disengaged clients through in-depth interviews and pain-point analysis, defining a clear UX strategy and product roadmap that rebuilt trust and aligned short and long-term business goals.

- Conducted heuristic evaluations with product and engineering teams, streamlining key workflows by **25% and reducing support ticket** volume by 15% over 6 months.

Skillnet Solutions Inc.
UI/UX Designer
Clients: IKEA, Labcorp, ATD, Liverpool, Kaiser Permanente

Remote (India)
Jun 2022 – Sep 2024

- Delivered 5 major client engagements**, including IKEA's supply chain platform, Labcorp and ATD's B2B eCommerce, and mobile POS for Liverpool and Kaiser, achieving 100% client satisfaction across all projects.
- Partnered with stakeholders across 5 enterprise clients to define UX requirements, aligning design decisions with business goals and user needs throughout the product lifecycle.
- Synthesised user research into wireframes, journey maps, and high-fidelity prototypes; handoff documentation used by a team of 20 engineers, reducing design QA back-and-forth and accelerating sprint delivery.
- Maintained a structured **design system** and component library, ensuring scalable, reusable UI patterns across all client products and consistent developer handoff quality.

Founding Designer
AisMik Web Technologies

Dehradun (India)
Aug 2015 – May 2022

- Designed eCommerce templates that **sold 18,000+ copies** on Envato, establishing the agency as a recognised contributor in the marketplace.
- Delivered **150+ client** websites end-to-end (design + development), achieving a 30% client retention and repeat-business rate through high-quality execution and on-time delivery.
- Built and managed a **5-person design and development team**, setting quality standards, providing design direction, and maintaining delivery performance across simultaneous client projects.

EDUCATION

Indian Institute of Technology, Roorkee
May 2026 - Present

Post Graduate - UI/UX Design

Maharaja Agresen Himalayan Garhwal University, Pauri Garhwal
Aug 2021 – Jul 2023

Master of Arts - Psychology

IEC University, Solan
Jul 2018 – Aug 2021

Bachelor of Computer Application

SKILLS

UX & Product Design
User-centred design, Design strategy, Systems thinking, Wireframing, Prototyping, Journey mapping, Information architecture, Design systems, Accessibility (WCAG), Usability testing, Heuristic evaluation, A/B testing, Design ops

UI & Visual Design
UI design, Visual design, Branding, Style guides, High-fidelity mockups, Illustration, Design System, Atomic Design

Research & Analytic
User research, Persona development, User interviews, Surveys, Stakeholder management, Heuristic evaluation

Tools
Figma, Adobe XD, Sketch, Penpot, Adobe Creative Suite, Google Analytics, Hotjar, Mixpanel, Sentry, Figma Make

Code & Prototyping
HTML, CSS, TailwindCSS, JavaScript, React (UI prototyping), WordPress, v0, Lovable, Opencode

AI Product Design
Retrieval-Augmented Generation (RAG) Experiences, Conversational UI & Chat Interfaces, AI Agent Design, Prompt Engineering for Product Experiences. AI-Assisted Workflow Design, Human-in-the-Loop Systems, AI Output, Confidence & Error State Design, Enterprise AI Feature Discovery & Validation, Generative UI Exploration, AI-Powered Prototyping

Collaboration

Cross-functional collaboration, Developer handoff, Agile/Scrum, Jira, Confluence, Design critique, Design leadership
